This is just a collection of interesting images. These are pics I pretty much had nothing to do with, except that I collected them, and still find them interesting to look at. No idea where many came from, just enjoy them for what they are.

GOVERNMENT

IF YOU THINK THE PROBLEMS WE CREATE ARE BAD,
JUST WAIT UNTIL YOU SEE OUR SOLUTIONS.
A rare sighting of the elusive “any” key.

Service Department

“No, I’m not angry at you, sir. I’m angry at the random act of fate that directed your call to my extension.”
"THE COMPUTER SAYS I NEED TO UPGRADE MY BRAIN TO BE COMPATIBLE WITH ITS NEW SOFTWARE."
Never argue with stupid people, they will drag you down to their level and then beat you with experience.

~Mark Twain
This figure illustrates dominant colors in various forms of color schemes. Color blindness affects about 1 in 12 men and 1 in 200 women.

Visual Index
To find a color by its code...

1. Look up the number in the table below, for example, CC6600.

2. Arrows show where to look among the color chips above.

3. Find the color that matches with the code below.

March 2000 Edition
www.visibone.com/visbone

Color are grouped by bias. Teaching color chips have the same bias.

ScoutWeb has this color chart available in several color schemes.

WALLY: WHY ISN'T MY E-MAIL WORKING TODAY?

THE INTERNET IS FULL.

GREAT! NOW WHAT DO I DO?

I WONDER IF I'M SUPPOSED TO SEE ANYTHING WHEN IT'S DRAINING.
THIS WAS DONE WITH A SLIDE RULE.

Your eighth grader has more computing power in his cell phone and still can't pass math because he won't do more than fifteen minutes of homework.

Where do you think HELL be going?
NOT ALL WHO WANDER ARE LOST.
TOLKIEN

It takes courage to grow up and become who you really are.
E.E. CUMMINGS
¿What if soy milk is just regular milk introducing itself in Spanish?
Inflation Comparison: Percent Growth

Note: January 1978 is the earliest CPI data for College Tuition & Fees.
NINJAS
There are four of them in this picture.
HOW IT WORKS

1. Fridge is made up of two cylinders - one inside the other - and is not connected to any power source. Outer cylinder made of any solid material (eg wood or plastic) with holes drilled in the side.

2. Inner cylinder is made of metal and has no holes to ensure contents remain dry.

3. The gap between the inner and outer cylinder is filled with a material such as sand, wool or soil, that can be soaked with water.

4. In hot weather the sun’s rays heats this wet material and the water evaporates off. As the material is held against the inner cylinder wall, heat is removed from the inner chamber by the evaporation process, keeping it at a temperature of a cool 6c.

5. Resoaking material with fresh water will keep the ‘fridge’ working.
